

## REQUEST FOR IBPA FUNDING

The IB Parent Association has funds available each academic year to use to augment classroom instruction. When making funding decisions, we consider a number of factors and place primary importance on benefiting as many students as possible and providing materials that can be used by multiple teachers and/or over a number of years.

However, we encourage requests of all kinds and will always look for ways in which the IB parent community can support your classroom efforts. We may be able to incorporate the funding of more expensive items into our future fundraising goals.

To help us in making these decisions, we ask that you provide as much detailed information as possible about exactly what you are requesting and how much it would cost, including attaching descriptions of the items, website information, order forms, and photos if possible.

**Please return this form to Ms. Laura Kamka and Jacqueline Page.**
